FROG® LEAP CATALOG

OUR VISION:

Enrich Lives Daily

OUR MISSION:

Water treatment rock n' roll through radical invention, unique delivery and Star Wars ingredients.

The King Family Front row: Everett (Evie), Oskar, Mary, Graydon, Cameron, Erin
Back row: Aksel, Randi, Alex, Joe, Carson, Brennan, not pictured: Maeli

We're grateful for your partnership, as always. Last year, we launched FROG® @ease® Sanitizing Systems for Swim Spas, the first and only complete sanitizing system for swim spas. It's been well-received, and we're thrilled, we know this product has positively impacted your business and delighted swim spa owners.

This year, we launch a line of new pool products designed to address your pool owner's water care concerns in the easiest possible way.

We also have a new product exclusively for pool and service professionals, created to make their lives easier and their business stronger.

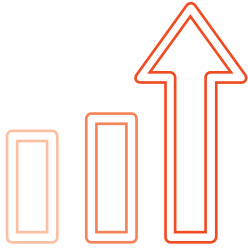

Our Vision is to Enrich Lives Daily, and these new products broaden the scope of making water care easier for recreational pool, hot tub and swim spa owners and professionals.

While we've been innovating for more than 45 years, we're just getting started! We can't wait to help you with your business and watch it soar. We're grateful for your continued trust and support.

Joe, Mary, Alex and Carson King

NEW FOR 2025: Each dealer location can use co-op dollars to purchase a FROG Recycle Box. (One per year)

CREATE FRESH MINERAL WATER^{®∞} IN SWIM SPAS, HOT TUBS & POOLS

FROG[®] SANITIZING MINERALS[®] OFFER PRODUCTS THAT:

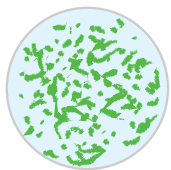

- Deliver what no one else can: Fresh Mineral Water[∞]
- Drive strong repeat sales with very satisfied customers
- Extend chlorine use up to 2X
- Are EPA registered

Not all Minerals are the Same. In FROG[®] Minerals:

- Silver destroys bacteria
- FROG Minerals add softness, absorb acids and help keep pH balanced for Cleaner, Clearer, Softer[®] water

FROG[®] Minerals + a Low Level of Chlorine Kill Bacteria

The petri dishes below demonstrate the disinfection capabilities of minerals with 0.5 ppm chlorine for killing fresh cultures of E. coli bacteria

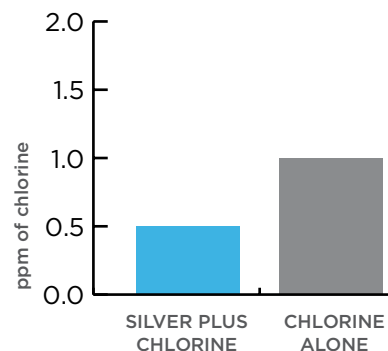

No treatment
Shows rapid
bacteria growth

Silver plus 0.5 ppm chlorine
Shows no
bacteria growth

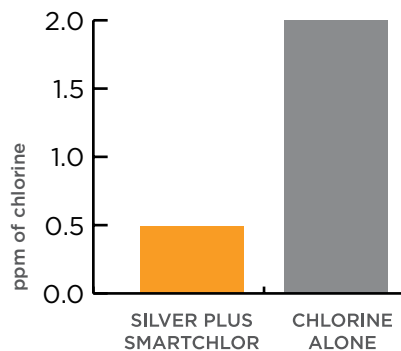

***There's a FROG[®] product for every pool, hot tub,
and now swim spa!***

FROG[®] Minerals Reduce Chlorine Use in Pools Up to 50%*

Silver plus 0.5 ppm of chlorine is as effective as 1.0 ppm of chlorine alone.

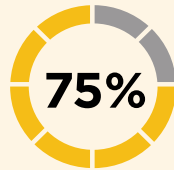

FROG[®] Minerals Reduce Chlorine Use in FROG[®] @ease[®] Swim Spas & Hot Tubs up to 75%*

Silver plus 0.5 - 1.0 ppm of SmartChlor[®] is as effective as 2.0 ppm of chlorine alone.

TEST STRIPS

FOR FROG® @ease® HOT TUBS & SWIM SPAS

FROG @ease
reduces chlorine use
up to 75%*

ORDER CODE: 01-14-3350

Only FROG® @ease® Test Strips'
single color match Out Indicator
shows when to replace the
SmartChlor® Cartridge.

No need to measure the Free Chlorine level.

SmartChlor®
Out Indicator

If lighter, check to see
if the Cartridge is empty.

*New Improved FROG @ease
Test Strips with easy to read
color on the "Out Indicator."

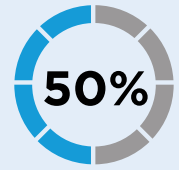

Other test strips will show Total Chlorine and Free
Chlorine ranges that are different than the way
FROG @ease works, which causes confusion.

TEST STRIPS

FOR FROG® POOLS & HOT TUBS

Fresh Mineral Water[∞]
reduces chlorine or
bromine use up to 50%*

ORDER CODE: 01-14-3318

Only FROG® Test Strips show the
ideal Free Chlorine or Bromine
levels for FROG® pools and hot tubs.

Other Test Strips
Free Chlorine (ppm)

VS.

FROG® Test Strips for
Pools Free Chlorine (ppm)

Other Test Strips
Bromine (ppm)

VS.

FROG® Test Strips for
Hot Tubs Bromine (ppm)

Other test strips may indicate chlorine or
bromine levels are too low, which causes
consumers to waste chlorine.

Works with these hot tub and pool products:

6 units per case / 110 cases per pallet

CYANURIC ACID'S NEGATIVE IMPACT

Swim Spas have been classified as portable spas.

Every bottle of dichlor is about 50% Cyanuric Acid.

The CDC does not recommend the use of chlorine with Cyanuric Acid in hot tubs or swim spas.¹

With every dose of dichlor, the Cyanuric Acid builds while the chlorine becomes less and less effective. Within seven weeks, a consumer may have no option but to drain and refill their hot tub or swim spa.

| Weeks | Cyanuric Acid Level | Results |
|-------|---------------------|----------------------|
| 4 | 50 ppm | Problems begin |
| 7 | 100 ppm | Chlorine ineffective |
| 10 | 150 ppm | Unrecoverable |

Based on 1/2 tsp. per 100 gallons 4x per week

Cloudy

Smelly

Cyanuric Acid levels over 50 ppm make water that's:

Hard to Manage

Itchy

The good news is FROG® @ease® has 0% Cyanuric Acid!

0% Cyanuric Acid

Learn more about CYA:

Promote FROG® @ease®:
Hot tub and swim spa owners struggling with water care? When they test their Cyanuric Acid and the levels are high, you'll have the solution - FROG @ease.

CYA Test Strip Card available at partners.kingtechnology.com
ORDER CODE: 20-49-0221

WONDERING WHY YOUR HOT TUB WATER IS CLOUDY AND HARD TO MANAGE?
THIS'LL HELP CLEAR THINGS UP

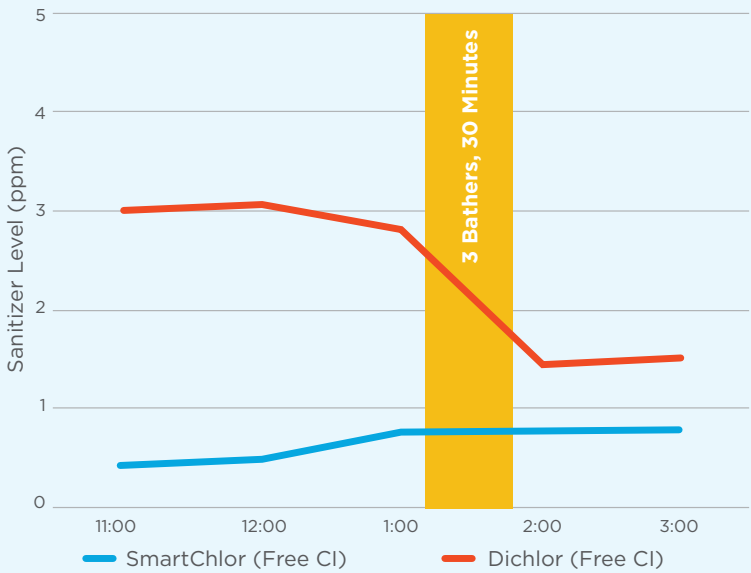

Even though Cyanuric acid (CYA) isn't recommended for hot tubs, most cleaning products contain massive amounts of it. Take this quick test to find out if CYA is the cause of your hot tub water problems.

HOW TO USE:
1. Remove only fresh hot water.
2. Dip strip in hot water.
3. Remove strip and read test results.
4. Compare color to color chart.

TEST RESULTS:
0 40 100 150 250 500
CYA (ppm)

Fortunately, FROG @ease has 0% CYA

Self-Regulating Properties of SmartChlor® Technology

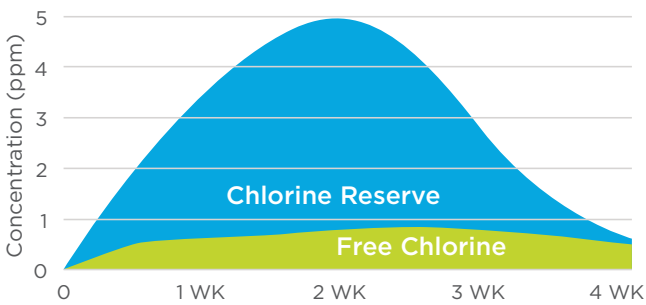

SmartChlor Technology maintains a consistently low Free Chlorine level of 0.5 – 1.0 ppm at all times. It does so by creating a Chlorine Reserve that converts to Free Chlorine when it senses demand.

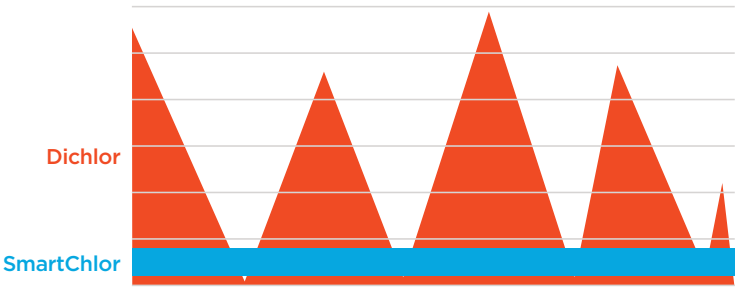

Dichlor's Free Chlorine level drops significantly under demand, requiring the user to shock.

SmartChlor reduces shocking to only once a month!

The Genius of SmartChlor®

SmartChlor® vs. Dichlor

No more yo-yo chlorine levels with SmartChlor!

| | SmartChlor® | Dichlor |
|----------------|----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| Total Chlorine | SmartChlor Reserve converts to Free Chlorine when needed | To determine level of chloramines measure the difference between Free Chlorine and Total Chlorine |
| Free Chlorine | Self-regulates at a consistent 0.5 – 1.0 ppm for the life of the Cartridge | Need to keep adding to maintain 2.0 – 4.0 ppm |
| Shocking | Once a month | At least weekly |
| Cyanuric Acid | No Cyanuric Acid — so no problems | 50% Cyanuric Acid — builds up quickly |

WELCOME TO EASY WATER CARE

THE FIRST COMPLETE SOLUTION FOR SWIM SPAS

FROG® @ease® SANITIZING SYSTEM FOR SWIM SPAS

- Kills bacteria 2 ways
- Uses SmartChlor® and Fresh Mineral Water®

HELP US PROTECT OUR BRAND

King Technology's trademarks are some of our most valuable assets. They distinguish our products from our competitors' and signify the high quality of our products. They protect both of our businesses. Take proactive steps to maintain a strong FROG brand presence and ensure a positive experience for your customers. All retailers who sell FROG products on their website MUST register their website at kingauthorizedseller.com
